Rimini

Rimini Motor Soul

For the second year around, the Rimini enhances the excellence of the Emilia Romagna "Motor Valley" in the most important showcase of the world. This project developed in the world of motors, was launched in 2014, in synergy with Aldo Drudi, a world-famous designer mainly specialized in motorbikes. All the project initiatives will take place in the framework of two expos that are unique in their kind. One puts on display the marvellous racing motorbikes, the race suits and helmets worn by the champions of the MotoGP World Championship. This exhibition is re-invented every year with ever new ideas and chromatic suggestions inspired by the Road Racing World Championship, which takes on a new look every season. The second expo will be a photographic exhibition that gathers the best shots taken by the pro-

professionals at the MotoGP circuits. The images will be selected once again by photographer Gigi Soldano, and in 2015 this will give birth to a contest open to all MotoGP enthusiasts, who will select the best snapshots. Along with the exhibitions, plenty of sports and performing arts shows and events will take place in the most important places of Rimini.
